

**HALO ARMORED VEHICLES**

**VEHICLES AVAILABLE FOR LEASE AND PURCHASE**

**GLASS:** A combination of glass, polycarbonate and Mylar bonded together produces one of the finest transparent armors available.

**ARMOR:** Fully encapsulated passenger compartment. Armor overlaps and joints designed to prevent ricochet and weak point penetration.

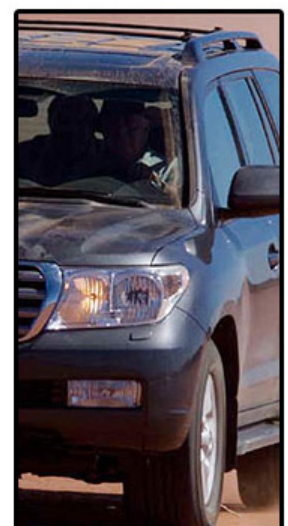

**POWER:** Vehicle battery and ECM armor protection prevent power disruption.  
**ENGINE:** Engine bay flank armor protection protects against vehicle disablement.

**TIRES AND SUSPENSION:** Run flat tires reduce vehicle disablement. Suspension upgraded to handle tactical conditions. Brakes upgraded to handle increased weight and tactical driving conditions.

**HALO SERVICES**

**EXPERIENCED TACTICAL DRIVERS AND OPERATORS**

- **TRANSPORTATION SERVICES:** HALO offers professional drivers in a variety of standard/armored vehicles and helicopters.
- **THREAT ASSESSMENTS:** We offer a wide variety of threat, vulnerability, risk analysis and safety consulting for your residence or business.
- **TRAINING AND EDUCATION:** We develop courses, workshops and curriculum for disaster management, emergency response, personnel security, situational awareness and technology solutions.
- **SECURITY TECHNOLOGY:** We offer a wide range of cameras, sensors, tracking devices, monitoring services and integration for any custom application.

**HALO EXECUTIVE PROTECTION SERVICES**

**LOCAL AND US OPERATORS + INTEGRATED TECHNOLOGY**

The HALO Corporation personal security team is composed of former special operations and elite law enforcement personnel. HALO security professionals have years of experience providing personal security for VIPs and dignitaries globally. Our security operatives are professional, discreet, and committed to client safety.

The HALO Corporations provides a hybrid solution comprised of US trained local, state and federal law enforcement/military personnel with US based team leaders.
