HALO GeoTrack

GeoTrack by The HALO Corporation is an advanced software and hardware system that tracks both human and vehicle assets. GeoTrack provides the following features:

- Accept position data from nearly any internet or SMS enabled device and can accept hand entry of static positions.
- Transmit alerts via SMS or e-mail for a variety of events including geo fences, panic buttons, failures to report and over speed warnings.
- Can be accessed through a web application environment on any computer or via an internet capable PDA.

GeoTrack Applications

Executive Protection and Security Operations

GeoTrack configured for Executive Protection details provides the team leader and headquarters personnel with an exact location of all personnel and assets in a threat area. Each device is outfitted with a panic button to immediately alert the necessary people and enact a response plan. Track information is available to team leaders and headquarters on PDA style cellular phones and via The HALO Corporations proprietary software interface and web portal.

The HALO Corporation offers a 24/7 monitoring service using GeoTrack that can manage a response plan and coordinate with local, state and federal law enforcement/military. This monitored solution greatly enhances the reaction time and survivability of personnel and assets after an event has occurred.

Asset Tracking

GeoTrack provides companies with the ability to monitor the location of shipments, delivery vehicles and other fleet operations. Individuals can use this service to keep track of loved ones and children. Tracks can be easily viewed through The HALO Corporations web portal, Google Earth or on an internet enabled PDA device such as a smart phone.

GeoTrack provides you with track history reports, the ability to filter by speed, calculate total miles, print movement reports along with a host of analysis tools.

Covert and Law Enforcement Tracking

The HALO Corporation can provide a wide range of tracking devices for covert install and law enforcement/ military use.
